# An OBJective Competition

A Quick Look at File vs. OBJ Performance

**DCL**LTechnologies

### And our broad portfolio from core to cloud

NAS<sup>1</sup>
Storage Software<sup>2</sup>
Unstructured Storage<sup>1</sup>
Hyperconverged Systems<sup>3</sup>
All-Flash and Hybrid Flash Arrays<sup>1</sup>
External Enterprise Storage Systems (Entry, Midrange and High-end)<sup>1</sup>
Data Replication & Protection Software<sup>4</sup>

Data Protection Appliance & Software Purpose-Built Backup Appliance

Converged Systems<sup>3</sup>

PowerProtect DD Series Appliances
PowerProtect Data Manager
Data Protection Suite

Hyperconverged & Converged Infrastructure

VxRail
PowerFlex
Azure Stack family
vSAN Ready Node
VxBlock

#### Worldwide rankings, Q2CY2

FIDC WW Quarterly Enterprise Storage Systems Fracker, 2021Q2, September 9, 2021, Vendor Revenue FIDC WW Quarterly Storage Software & Cloud Services QView, 2021Q2, September 9, 2021, Vendor Rever

IDC WW Quarterly Converged Systems Tracker, 2021Q2, September 16, 2021, Vendor Revenue

<sup>4</sup>IDC 1Q21 Storage Software and Cloud Services Qview

<sup>5</sup> Based on combined revenue from the IDC 1Q21 Purpose-Built Backup Appliance (PBBA) Tracker, with select Storage

Software segments from the 1Q21 Storage Software and Cloud Services Qvie

Note: Unstructured Storage includes object-based storage (excluding HCI) and Scale-Out NAS (excluding HCI) combined

**Data Protection & Cyber Recovery** 

### Dell Technologies' ECS and PowerScale

### **ECS – Object Store**

- Industry leading Object storage appliance
- Native OBJ store, not SW defined
- Integrated geo replication
- Highly scalable

#### **PowerScale – File Store**

- All Flash or all disc options for tiering and optimal spend
- Multi-protocol in and out
- Multi Tenancy and extreme concurrency

## The Curiosity

The Test

The Eq.

Is OBJ faster than File?

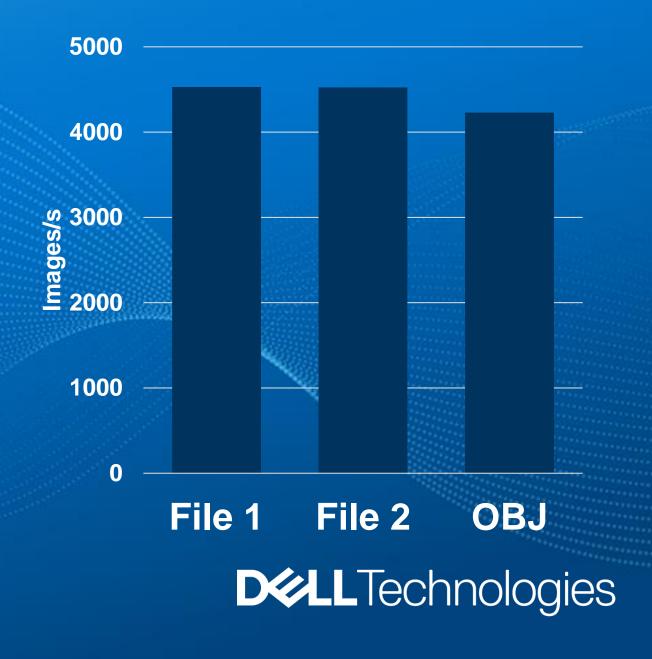

### Resnet-50

- Easy to setup for both File and OBJ
- Provides a heavy load for storage

All-Flash ECS vs.
All-Flash PowerScale

## The Results

For the same single node testing, OBJ performed admirably and was within a few % pts of the File systems performance

<sup>\*</sup> File and Object systems used all flash disk models

<sup>\*</sup> Not STAC Benchmarks
